

I just heard about  
Sinclair  
Broadcasting's plan  
to air an anti-Kerry  
documentary right  
before the election  
in several swing  
states. This would  
be a blatant misuse  
of the airwaves to  
fulfill a political  
agenda - unless they  
air something in  
favor of Kerry to  
coincide.

This act would  
clearly NOT be in  
the public interest.  
What we need are  
continued debates  
and discussions of  
the issues - NOT  
powerful  
broadcasting  
companies using free  
air time to satisfy  
their political  
agenda. Tactics such  
as these have been  
around forever but  
that does not  
justify them.

If this program is  
aired as planned,  
please see that  
Sinclair  
Broadcasting is held  
accountable for it's  
actions in time for  
a rebuttal and NOT  
AFTER THE ELECTION!

Thank you for your  
time.
